NEVADA RURAL HOSPITAL PARTNERS

HISTORY

Building on a long history of cooperation dating from the mid 1970's, Nevada's frontier, small and rural hospitals realized they are much stronger standing together than as isolated, unaffiliated entities. In 1987, with temporary funding from The Robert Wood Johnson Foundation's "Hospital Based Rural Healthcare Program," the group established a formal consortium, Nevada Rural Hospital Project (now Partners), intended to focus on solutions to the issues and challenges facing rural hospitals. Now 32 years old, NRHP members and staff can point with pride to a long list of accomplishments.

PURPOSE

NRHP's purpose is to maintain access to hospital-based healthcare services in rural settings.

MISSION

NRHP's mission is to improve the viability of member hospitals through shared services, resources and advocacy.

MEMBERSHIP AND FOCUS

NRHP membership includes twelve of Nevada's fourteen small and rural hospitals. Regular Members are public and private not-for-profit facilities. For-profit hospitals belong as Associate Members of the NRHP Foundation. Each Regular Member is represented with an equal vote on the NRHP Board. NRHP is staffed by eight full time equivalents and operates from its office in Reno, Nevada. Funded by dues, grants, and fee-for-service programs, activities are organized to address the five key components of hospital viability listed below.

PROGRAMS AND ACTIVITIES THAT SHAPE AND INTERPRET THE MEMBERS' OPERATING ENVIRONMENT

- Advocate at the regulatory and legislative levels for rural hospitals
- Develop and maintain collaborative and productive relationships with other organizations to create resources and develop solutions for the members
- Synthesize and disseminate information
- Protect and maintain NRHP as a valued resource for members

PROGRAMS AND ACTIVITIES THAT SUPPORT MEMBER FINANCIAL VIABILITY

- Maintain, administer, and grow the NRHP Revolving Loan Pool and the Rural Healthcare Provider (RHP) Loan Pool
- Obtain grants that support the NRHP mission and advance members' missions
- Provide centralized financial expertise
- Provide data to support member decision-making
- Educate members' business/financial staffs and boards about hospital finance and operations
- Support members through the Flex and SHIP programs' Financial and Quality Performance Improvement initiatives
- Reduce member cost
 - Administer member employee health insurance program
 - Administer the TEAM program (self-funded biomedical and communication equipment maintenance program)
 - Administer the members' professional liability insurance pool (LiCON)
 - Administer a group purchasing program for participating members
 - Administer Reference Lab group rate

- Administer Mobile MRI program for participating members
- Administer property insurance program
- Administer worker's compensation insurance program

PROGRAMS AND ACTIVITIES THAT ENHANCE THE AVAILABILITY AND QUALITY OF MEMBERS' HUMAN RESOURCES

- Promote workforce development
- Provide Board education to members
- Developed a Human Resources Work Group

PROGRAMS AND ACTIVITIES THAT SUPPORT AN APPROPRIATE ARRAY OF HIGH-QUALITY SERVICES IN MEMBER COMMUNITIES

- Support teleradiology services in member hospitals
- Support expansion of telehealth capability
- Support performance improvement, quality assurance, and patient safety
- Support Nevada Flex and SHIP programs
- Administer the Risk Manager Work Group, Infection Control Work Group, and Nevada Rural Hospital QI Network, Electronic Health Records (EHR) Work Group

PROGRAMS AND ACTIVITIES THAT SUPPORT ADEQUATE FACILITIES AND TECHNOLOGY IN MEMBER FACILITIES AND AT THE NRHP OFFICE

- Provide centralized information technology expertise to enhance member connectivity, functionality, and decision making
- Provide member education re: technology, federal, and local initiatives, etc.
- Manage the NRHP centralized telemedicine archive
- Support NRHP hosted applications, including shared, and member specific applications
- Support members' IT staff in daily operations, and problem resolution
- Support WAN broadband capacity, network security, and disaster recovery

SUMMARY

Nevada's small, rural and frontier hospitals are stronger individually, and as a group, because of the existence of NRHP. The foresight and commitment of individual hospital administrators and their boards, and the dedication of NRHP staff have resulted in a consortium that truly makes a positive difference.

Carson Valley Medical Center provides quality healthcare to the residents of Carson Valley and surrounding areas. A joint partnership of Barton Health of South Lake Tahoe and Renown Health of Reno, CVMC is a non-profit state-accredited critical access hospital with 23 licensed patient beds. At Carson Valley Medical Center, the scope of services is determined by the needs of the community. They pride themselves on ensuring that each of the services they offer is provided in an exceptional manner by compassionate, professional, highly-trained personnel. Patients at Carson Valley Medical Center might be surprised to learn that they have some of the most advanced medical technologies available, which is rare in a small, community hospital. Their patients can benefit from their 64-slice CT scanner, state-of-the-art multipurpose x-ray system, and advanced nuclear medicine capabilities. These technologies provide high-quality images quickly, allowing physicians to make an accurate and timely diagnosis.

Lincoln County Hospital District dba Grover C. Dils Medical Center was established in 1935. The district consists of two clinics, one located in Caliente which is a Rural Health Clinic (RHC) and one in Alamo. The Hospital is located in Caliente serving a county population of approximately 5,000 residents. The Hospital's mission is to provide Lincoln County Residents with excellent health care services. They take pride in serving its emergency, short-term and long-term care requirements. Their fine diagnostic and treatment services are designed to meet the area's special needs. Their mission is to provide the highest quality healthcare in a compassionate, efficient, and cost-effective atmosphere that supports the dignity and well-being of those residing in their rural communities. Their vision is to become a medical center that promotes patient confidence and financial stability in the advancement of healthcare excellence.

In this age of healthcare uncertainty, people are looking for a hospital that feels more like a family than a corporate takeover. For over 100 years, Humboldt General Hospital has provided that kind of family environment for the residents of north-central Nevada. True, the hospital is in the business of providing medical services for money, but they never forget that people come first. That is the philosophy that has sustained Humboldt General Hospital for the past 100 years; it is the same philosophy that will see them through the coming century.

Located in beautiful rural Nevada, South Lyon Medical Center has provided care to the residents of Mason and Smith Valley and the surrounding area for more than 50 years. SLMC believes it has a special responsibility to improve the health and well-being of the community, both inside and outside its walls. That is why they are constantly working to identify unmet needs and develop programs and services to address them. The expert care that patients receive at SLMC goes hand-in-hand with a level of concern that can be found only in a small hospital. SLMC's excellent nursing staff provides a broad-based range of experience that easily handles the demands of a combination long-term care facility and acute care hospital.
