March 8, 2017

Dear Nevada Trauma Registry Stakeholders:

The Division of Public and Behavioral Health would like to thank all of the Nevada Trauma Registry (NTR) stakeholders for participating in the two stakeholder meetings and for providing valuable input regarding whether the NTR should continue to be managed by the Division or by the Southern Nevada Health District. Upon careful evaluation of the stakeholder input received from each facility, the Division has decided to continue to manage the NTR. However, we do want to note that we are appreciative of the proposal from the Southern Nevada Health District and their dedicated willingness to improve the NTR and the trauma systems statewide.

Moving forward, the Division will continue to improve the NTR by obtaining legacy data from the four trauma centers. The Division will publish quarterly facility report cards, the Annual Trauma Report, quarterly newsletters and ad hoc reports when requested. Division staff will continue to provide Help Desk user support and will continue to work closely with all NTR stakeholders.

Again, thank you for your valuable input and collaboration.

Sincerely,

A handwritten signature in blue ink that reads "Cody L. Phinney".
